- Team Player
- Strong Adaptation Skills
- Communicative

LANGUAGES

- English
- Ukrainian

Summary

Enthusiastic and self-motivated Junior Frontend Engineer with a strong foundation in HTML, CSS, and JavaScript, and practical experience using React, Next.js. I am a good team player, fast learning, and adapting to new technologies quickly. Committed to leveraging my frontend development skills to create engaging and efficient user experiences.

I am currently at A2 level in English, I am actively working on improving my language skills. Looking for remote job.

Experience

Independently, I developed a React-based website, where I managed all aspects of the project including routing, navigation, and webpack settings. These experiences have sharpened my frontend development skills and my ability to deliver practical, user-centric solutions.

• Architecture Studio

Responsive React SPA with integrated a third-party API for designers.

GitHub: <https://github.com/RyndinaOlena/arch-studio>

During my intensive bootcamp training, I contributed to two key projects: one focused on crafting a responsive interface using pure HTML/SASS, and another one with interactive functionalities utilizing JavaScript/SASS.

• WebStudio

Responsive website using HTML, CSS, and JavaScript.

Link: <https://ryndinaolena.github.io/webstudio/>

GitHub: <https://github.com/RyndinaOlena/webstudio>

• Book Store

SPA with simple design for book store. Key features: signup/login, dark/light themes, shopping card and third party API for content.
